Disabling Cookies

Most web browsers automatically accept cookies, but if you prefer, you can edit your browser options to block them in the future. The Help portion of the toolbar on most browsers will tell you how to prevent your computer from accepting new cookies, how to have the browser notify you when you receive a new cookie or how to disable cookies altogether. Visitors to our Site who disable cookies will be able to browse certain areas of the Site, but some features may not function.

Clear GIFs, pixel tags and other technologies

Clear GIFs are tiny graphics with a unique identifier, similar in function to cookies. In contrast to cookies, which are stored on your computer's hard drive, clear GIFs are embedded invisibly on web pages. We may use clear GIFs (a.k.a. web beacons, web bugs or pixel tags), in connection with our Site to, among other things, track the activities of Site visitors, help us manage content and compile statistics about Site usage. We and our third-party service providers also use clear GIFs in HTML emails to our customers, to help us track email response rates, identify when our emails are viewed and track whether our emails are forwarded.

Third-Party Analytics

We use automated devices and applications, such as Google Analytics, to evaluate usage of our Site and, to the extent permitted, our Application. We also may use other analytic means to evaluate our Services. We use these tools to help us improve our Services, performance and user experiences. We do not share your personal information with these third parties
